CHARAKTER MÉDIA

Tělem akrobatů je miliony let stará hornina
s nelítostně tvrdou povahou
a smyslem pro věčnost.
V tonálních barvách mluví sama za sebe
a nechce se ztrácet v detailech.
Ukazuje svou tvář v lesku s charakterem,
s texturou drsných ploch
a ručně sekaných hran.

Odvážná žula v říši světů Akrobatů.

THE ACROBAT'S MINUTE

CHARACTER OF THE MEDIUM

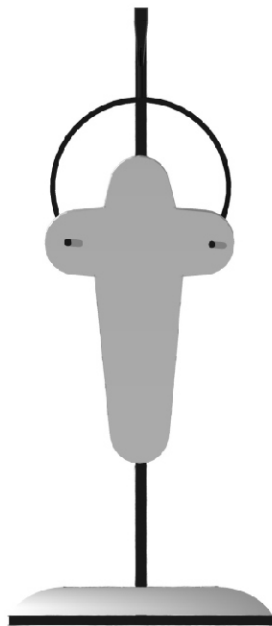

The bodies of these Acrobats are carved
from a rock millions of years old - hard and
unyielding, with a sense of eternity.
It is self - eloquent in its tonal colours;
refusing to lose itself in details.
It reveals its face that gleams with
character textured by the rough surfaces
and hand - carved edges.
The brave granite - in the realm
of the worlds of Acrobats.
